

# Laws - Principles of Creation

These LAWS are so much part of life that they are never questioned. They are undeviating and consistent - but there would be no such laws if there were no Creative Intelligent Power manifesting Itself through the universe. These 'principles' of creation, the characteristics of the Creative Power Itself, are as follows:

*[I am translating them into your present tense because these 'principles' are eternal.]*

## **1. The 'Nature' of the 'Creative Power' is GROWTH.**

Everything living always grows.

**GROWTH** is a universal characteristic, an undeviating principle of existence.

## **2. The 'Nature' of the 'Creative Power' is NUTRITION and NOURISHMENT.**

**Nutrition and Nourishment** are a normal and marvellously organized process within bodies which is evident to all who take the trouble to consider them. Nutrition is provided for all living things according to individual preferences and the food is digested to promote health and well-being. When little creatures are born, milk is already supplied within the mother, ready and waiting for the newborn. This too is a mystifying principle of existence none can deny.

No science can explain why such a fortuitous function within the system, ensuring survival of the species, should have originally come into being. The actual function itself may be understood but not the 'why' and the mainspring of the function.

### **3. The 'Nature' of the 'Creative Power' is HEALING.**

**Healing** is a natural characteristic of existence and can be said to be a natural 'Perfecting Process', which takes place to ensure individual comfort, but none can explain what prompts the activity of healing.

### **4. The 'Nature' of the 'Creative Power' is PROTECTION.**

**Protection** is an integral characteristic of Creative Power and all of its seeming 'miraculous' activity in the world is geared towards protection.

*[Today, your medical text books describe the various protective systems in your body but when I was in the desert I 'saw' the characteristic of Protection inherent in the Intelligent Creative Power in the following way.]*

As plants, birds and animals were presented to me for inspired observation, I could see how every 'need of protection' in bodies has been lovingly supplied, with the greatest attention to detail.

**5. This characteristic of 'Protection' is combined with the other dynamic characteristic of FULFILMENT OF NEED.**

This was made clearly apparent in the provision of hair, fur and feathers to protect the skin of living creatures and to provide warmth in the cold and shelter in the heat. I saw that the tender endings of important and sensitive fingers and toes were all provided with appropriate protection of hoof and nail. Eyebrows protected eyes from sweat, eyelids and lashes protected eyes from dust and damage. I realised that those animals which attracted flies were equipped with the kind of tails which would most speedily get rid of them.

**What a happy, joyous kind of love and caring were expressed in these small physical attributes which seemed so small and inconsequential and yet had such a profound bearing on the comfort of all living things. These physical luxuries, added to the basic physical design, were clearly the product of an Intelligence which intended creation to be comfortable and happy - free of the stress which would have been experienced by man and beast if these 'luxury items' had not been given them!**

Even the natural functions were so intelligently and comfortably designed as to call forth thanksgiving. Everything tucked so neatly out of sight. How blest, how fortunate was mankind to be born into a life so wonderfully provided for! Again my praises soared and I was lifted on an inner golden light of rapturous wonder - for I now 'saw' that, in addition to freedom from stress, living creatures were also meant to express the exuberant loving **NATURE** of the **Creative Power**. For this reason, they were equipped with limbs: arms, hands, legs and feet, fingers and toes, to enable them to move about, run, leap and dance, to be able to express their inmost thoughts and feelings. I even felt that if mankind longed to fly and grow wings and believed with all their hearts they could do so; eventually they would begin growing something additional to enable them to fly.

It was at this point of understanding of the **NATURE** of the '**Creative Power**' that I came into the full consciousness of the **LOVE** directing the **WORKS** of the **Universal Intelligent Creative Power**.

As I pondered this **LOVE**, I realised that the 'mother' in creation, nourishes, protects, fulfills the needs and tries to promote healing of offspring; this is the activity of **LOVE**.

## **6. The innate characteristic of the LOVING INTELLIGENT CREATIVE POWER which has given creation its individual form and 'being' is WORK.**

**It works for us, in us, and *through* us.**

**Its 'work' is always, always, always, prompted by LOVE.**

This cosmic revelation filled me with joy and astonishment. What a wonderful world we lived in! It was the culminating point in my enlightenment and my overall view of the **TRUTH** concerning the **SOURCE of ALL BEING**.

I had already 'seen' the reality of the physical bodies composed of various communities of identical 'infinitely tiny entities' working in a spirit of co-operation and harmony to produce the various components of the body - flesh, bone, blood, to eyes and hair.

The only difference between these communities **lay in the type of work** demanded by their common goals. Surely the **DIVINE IMPULSE** behind all this intelligent, purposeful activity in the body, was both the inspiration and foundation of man's own conduct when people worked in unison to produce a planned objective? They drew intelligence and purpose from the **Creative Power, yet how very different was man's behaviour when engaged in earthly construction or any other communal project for it was inevitably characterized by arguments and dissension.**

I was brought to a realisation of the **INFINITE POWER** of the '**Intelligent Creativity**' ever active within creation, maintaining order, co-operation, harmony, daily productivity, unequalled by man anywhere, at any time.

**7. SURVIVAL** was a natural characteristic of the '**Creative Power**'. In every case, the most wonderful provision had been made for all living things to grow, be healed of illnesses and injury, nourished in order to keep the body healthy, and to produce its own kind in order to ensure survival on this earth. This was the only reality mankind could be absolutely sure of and Its activity was consistent, year in and year out. The sun, moon, stars, all remained in their places for millennia and it was recognized that they all possessed their own paths of movement - this phenomena was all part of the grand scheme for survival in creation.

If this was so, how could there not be survival of the eternal flame of:

Loving Intelligent Creative Power hidden within the created entities of every kind in the universe? Therefore, this world was but a shadow and image of the hidden worlds of Loving Intelligent Creative Power beyond this dimension. The Reality of the entirety of creation lay beyond this visible world.

**8. The inherent characteristic of Loving Intelligent Creative Power was RHYTHM.**

**I saw that there was a RHYTHM in operation in the world.**

Everything was subject to seasons which gave a blossoming and burgeoning of life, a growing season coming up to the ripening and harvest, and the production of seeds which ensured the survival of plant life. Then there was the gradual dying away and rest period of winter. But nothing created and living was allowed to become extinct. The sun and moon expressed these characteristics within the universe. This rhythm could even be seen in the females of living things.

Therefore, everything in creation had its due time for appearance and harvest. It followed that man himself was subject to tides of growth and success and tides of dormancy.

## 9. The inherent characteristic of the Loving Intelligent Creative Power was LAW AND ORDER.

The undeviating order and reliability apparent in creation, even governing the tiny entities ('cells') within the body, were astonishing and far transcended any human endeavor. Therefore, the entire universe was operating under a system of perfect LAW and ORDER.

I realised on ever higher and higher levels of spiritual exaltation that the 'creative power' exhibited intelligent purposefulness and loving concern for all living things. I realised that life was not something nebulous or amorphous but an intelligent loving creative power which I could actually feel within myself as a tremendously heightened state of being, perception, radiance, ecstasy, joy, love. I knew myself to be one with it - filled with it - and I was one with everything around me and one with the sky and stars.

And - most wonderful and glorious of all - the very '**Nature**' and '**Function**' of **this 'Father - Creative Power'** was to work in order to create joy, beauty, and comfort to ensure mankind's well-being, to work within mankind to provide interior joy, health and comfort, and to work through mankind, inspiring him with new realisation and understanding.

Wonderful vistas of glorious creativity came to mind. Once we became truly 'at one', purified channels and instruments of the '**Intelligent Creative Power**', we could gradually ascend in consciousness until we truly expressed through our minds and hearts the very '**NATURE**' of the '**Universal Creative Power**'. Then 'life on earth' would indeed become a 'state of heaven' at all times and we would enter into a state of eternal life!

This must surely be the true goal behind creation, I thought. And it came to me with a surge of elation and loving joy, that this was the purpose for which man had been evolved and developed!

But - even at this present time, although mankind was so very imperfect in his behaviour, absolutely nothing was impossible to him in the future, since,

despite his wrongdoing, he was one with the 'Creative Power' and the 'Creative Power' was within him, giving him life, limb, and everything else he needed.

All of this realisation lifted me to the heights of rapture, elation and sublime ecstasy, so that I was scarcely able to bear it. I felt my body must dissolve with the expansion of Power within me. I was irradiated with **LIGHT** and could see **IT** all around me illuminating the desert scene.

My heart sang in praises. How wonderful and beautiful was the Loving Creative Power which worked in, through and for us, unceasingly!

### **What a MIRACLE was creation!**

I cried out loud:

'**YOU** are the **SOURCE of all BEING**, both creator and also manifested within and through the created: there is nothing in the entire universe which is apart or separate from the limitless, eternal infinity of **DIVINE LIFE, Creative Power Consciousness** - that you are - how then is it possible that mankind is so sinful - and why do people suffer disease, misery and poverty? Tell me, O loving, **loving 'Father' Creative Power**, because I have been heavily burdened with the pain of their miserable lives.'

Then I was shown the reality of the 'earthly condition' of all living things.

I felt immense excitement because, at last, I would be able to understand how it was that such a loving **Divine 'Creative Power'** could allow Its creation to endure such misery.

I was shown that every living thing in creation should be radiantly healthy, cared for, nourished, protected, healed, maintained in peace and plenty, prospered within an orderly society of 'beings' extending only love to each other.

*[However, at the moment of creation, two BASIC IMPULSES came into being, ensuring individuality, and it was these which controlled mankind's*

*consciousness. These IMPULSES were explained to me in detail but this knowledge is reserved for a future Letter when you will be better able to understand it.]*

I was shown the following vivid vision.

**First of all, I saw a newborn babe as 'light', a life-form of 'Creative Power'.**

As the baby grew into childhood, then manhood, I saw the pure **LIGHT** of the **'Creative Power'** gradually dimmed and then obscured altogether in him, by a dense wrapping of chains and thongs.

I questioned the meaning of the vision and there came to my mind a clear understanding which may be expressed in the following words:

**'From birth to death - people believe and insist that their five senses of sight, hearing, touch, smell and taste, correctly predicate the 'reality' of themselves and the universe around them. Therefore, because they draw their mind power direct from Divine 'Creative Power', it is done to them according to their beliefs.'**

**Each thong** represents a person's habitual thoughts, responses to people and events, prejudices, hates, animosities, anxieties, sorrows, all of which bind him down and shut out the Light from his inner vision drawn from the 'Creative Power'. Thus he enters into darkness but does not know it. He believes he is growing up and becoming mature in the ways of the world which will enable him to forge ahead and make 'good' - become successful - the aim of most people on earth.

In fact, the more mature he becomes and versed in worldly ways, the more densely do his chains and thongs imprison him within the grip of the twin IMPULSES of 'Bonding-Rejection'.

Furthermore, each chain is forged out of selfish and deceitful desires, greed, aggression, violence and rape. These chains hang heavy around him and burden the psyche, which is the 'creative consciousness power' deep within

him. Chain and thong will bind him tighter with every passing year until he realises what he is doing to himself and sincerely repents each thong and chain and makes due restitution to others whom he has harmed.

With this vision I learnt a most valuable aspect of existence. Man himself is born with all the potential to make a beautiful life for himself but he, himself, by indulging his selfish desires and hatreds, creates a prison of misery for himself from which there was no escape until such times as he realises the **TRUTH OF EXISTENCE**.

All the problems of harsh existence lay within the thought processes of man himself !

Only people's 'consciousness forms', their thoughts, words, feelings, actions created a dense barrier between their consciousness and the Universal Creative Consciousness interpenetrating the universe in every leaf, tree, insect, bird, animal and human being.
